- 10 foot hydraulic hose
- Set of POSI LOCK® Hold-Et's (Magnetic Vise Clips)

"We use our hydraulic vise from Posi Lock daily and we find new uses for it all the time. The foot controlled hydraulic pump frees up your hands for holding parts in place. To say we like the vise would be an understatement. If the people at Posi Lock ever want the vise back, they'll have to fight me for it."

Jerry Tufte • Tough-T Manufacturing

"Posi Lock has taken a mainstay fixture of the workshop and made it faster, more efficient and productive with the capabilities of using it as a small press. It's a welcome addition to any progressive shop at an attractive price."

Terry Lim • Tuf-Tools
